DD/P noted that DIA has hired a public relations firm to help develop a college recruitment program. The DIA goal is two hundred young men to be hired this year.

Executive Director discussed the mission of the Knox Panel looking into Intelligence Community information handling. Because of PFIAB and Presidential Science Advisor sponsorship of the Panel, the Agency will cooperate with the Panel as far as possible. Borel is the Agency's focal point in dealing with the Panel. Each Deputy Director was asked to name an officer to work with Borel in keeping abreast of the Panel's work in the Agency. For correspondence and requirements external to the Agency involving the Knox Panel, D/DCI/NIPE will be the reviewer.

Executive Director asked all hands to ensure that O-PPB is kept advised on the nature of Agency briefings and dealings with Mr. Convisser, the new BOB examiner.

DDCI noted yesterday's clandestine report about MIG-19 production in China, including word that a new model of the MIG-19 is what is being produced. It was agreed that this will be the subject of continuing analysis.

ACTIONS:

1. DCI requested an OCI-ONE assessment of the recent Rand report based on interrogations of Viet Cong defectors and purporting to indicate the state of morale among the Viet Cong. DCI requested advice on the validity of this information and the implications it holds for U. S. policies. (DD/I and ONE by 3 February)

2. DCI requests advice and information on certain ordnance intelligence. He wants to know how the U. S. Army assesses the capabilities of Communist weapons and what is being done to borrow for our own technology the better aspects of Communist weapons. (DD/S by 3 February)
